APPROVAL OF STATE ENGINEER
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:
This permit to change the place of use of a portion of the waters of an under- ground source as heretofore granted under Permit 45189 is issued subject to the terms
and conditions imposed in said Permit 45189 and with the understanding that no other
rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the
discharge pipeline near the point of diversion and accurate measurements must be kept
of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by
the State Engineer pursuant to NRS 534.030. The State retains the right to regulate
the use of the water herein granted at any and all times.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
-
